SUMMARY

After graduating in Chemistry, I learned web development through self-study and two full-stack bootcamps. Within 18 months, I built multiple full-stack web applications while gaining practical experience across both frontend and backend development. I now work as a Frontend Developer at Integrtrade, where I build and maintain web applications using React and Next.js. I also have experience building REST APIs with Django and Express, working with JWT authentication, developing admin dashboards, and integrating payment gateways.

TECHNICAL SKILLS

Languages : JavaScript, Python
Frontend : React.js, Next.js, Tailwind CSS, ShadCN UI, Redux Toolkit, RTK Query, Framer Motion
Backend : Node.js, Express.js, Django, RESTful APIs, JWT Authentication, Role-Based Access Control
Database & ORM : MongoDB, Mongoose, Django ORM
DevOps & Tools: Vercel, Netlify, Render, Hostinger, HostGator, Git, GitHub, Postman, Team Collaboration

WORK EXPERIENCE

Integrtrade *April 2025 - Present*
Frontend Developer | Freelance

- Build and maintain Integrtrade's website in Next.js and TypeScript, including dynamic pages with per-page metadata generated for SEO.
- Add new pages and update client-provided content, then deploy changes to Hostinger.
- Monitor the site for bugs and fix them independently, working with the backend team to integrate new pages and features.

PROJECTS

NeonStich – Full Stack Clothing E-commerce Platform [GitHub](#)
Tech Stack : MERN Stack | Redux Toolkit | MongoDB | JWT | Stripe | Cloudinary

- Cart saves the size picked per item and filters stack across category, size, price range, and keyword at the same time.
- Order moves from Processing to Shipped, admins push the update and customers track it from their order history.
- Admin dashboard is JWT role-gated with product, user, and order management plus Cloudinary for image uploads.

The Medhakosh – Online Learning Platform [GitHub](#)
Tech Stack : React.js | Django REST Framework | JWT | Payment Gateways | Redux Toolkit

- Students enroll in courses and progress is tracked per course, with payment integration for secure checkout.
- Teachers create, update, and organize courses into modules and lessons through a dedicated dashboard.
- Built a Django REST API with JWT authentication and a React/Vite frontend using Redux Toolkit and Zod for form validation.

EDUCATION

Govt. Tolaram College *Appeared*
Bachelor of Science (Hons) in Chemistry

Dr. Mahbubur Rahman Mollah College *2017 – 2019*
HSC (Science) | GPA : 4.58

CERTIFICATION

- Full Stack Web Development with Python, Django & React from Ostad *November 2024 - July 2025*
- Complete Web Development course from Programming Hero *December 2023 - July 2024*
